

Optimize water use with a **wave of your hand!**

Hospitals, schools and foodservice operations are always looking to conserve water, promote better health practices and cut costs. Now, Fisher offers an innovative way to do it all — with the Navigator™ Sensor Faucets.

These innovative systems give you the ability to turn on and turn off water completely hands free, using sensor technology. Available in both wall-mount and deck-mount setups, Navigator™ Sensor Faucets bring convenience, efficiency and reliability to your operation.

ENHANCED CONSERVATION

Fisher Sensor-driven Navigator™ faucets can conserve nearly a gallon of water for every effective hand wash. Add lower water heating costs and you'll save money plus, help the environment.

BETTER HYGIENE

Faucet handles are a primary means for spreading disease. A smart, hands-free alternative, Fisher Navigator™ fixtures cut contamination risk and can help reduce employee absenteeism, too.

LEGENDARY FISHER RELIABILITY

Navigator™ faucets are engineered and built like all the products Fisher has offered over the past 80 years — with unrivaled quality. They'll deliver years of trouble-free service.

- ❶ **Wall- and deck-mount models** – to fit any operational need
- ❷ **Compact controls** – conveniently mount under sink
- ❸ **Mechanical mixing valve** – helps prevent scalding
- ❹ **Adjustable shut-off delay reduces water waste**
- ❺ **Variable sensor range for different sink sizes or personal preferences**
- ❻ **Built-in filter** – ensures particle-free water
- ❼ **Standard AA backup batteries** – with low battery indicator
- ❽ **Complete kit** – includes faucet, control unit, supply lines, AC adapter and mixing valve
- ❾ **AC/DC power** – provides continuous operation regardless of power supply
